

## SCHOOL PHOTO CONSENT FORM

From time to time we take photographs or films of students for publicity purposes and to show our funders. These images may appear in printed publications, on our website and social media sites, or both. We may also send them to the news media. Although it is not a legal requirement to have an individual's permission for photography, our policy to safeguard student privacy is to seek consent where the focus is on specific individuals (rather than general shots).

Please note that you can view websites throughout the world, not just in the United Kingdom where UK law applies
