?

@hertsmaths

I am a two-digit number
smaller than 50.

I am a multiple of 4 but
not a multiple of 8.

I have one odd digit.

Who could I be?

?

?

@hertsmaths

I am a number between
10 and 30.

I am a multiple of 3 but
not a multiple of 5.

Who could I be?

?

?

@hertsmaths

I am an odd number
between 14 and 24.

My digits add up to an
even number.

Who could I be?

?

?

@hertsmaths

I am smaller than 7 but
bigger than 3.

Who could I be?

Can you show what I
could look like in
different ways?
